Insurance: Mathematics and Economics 5 (1986) 337–338
North-Holland

Author Index Volume 5 (1986)

(The issue number is given in parentheses)

Albrecht, P., A note on insurance leverage under skew distributions (4) 275–278
Beenstock, M., G. Dickinson and **S. Khajuria**, The determination of life premiums: An international cross-section analysis 1970–1981 (4) 261–270
Benjamin, B., Discussion of "Underwriting strategy in a competitive insurance environment" by G.C. Taylor (1) 79– 80
Borch, K., Risk theory and serendipity (1) 103–112
Broeckx, F., M. Goovaerts and **F. De Vylder**, Ordering of risks and ruin probabilities (1) 35– 39
Brown, A., Discussion of "Computational aspects of recursive evaluation of compound distributions" by H.H. Panjer and G.E. Willmot (1) 117–118
Byrnes, J.F., A survey of the relationship between claims reserves and solvency margins (1) 3– 29
Centeno, L., Measuring the effects of reinsurance by the adjustment coefficient (2) 169–182
Delbaen, F. and **J. Haezendonck**, Martingales in Markov processes applied to risk theory (3) 201–215
De Pril, N., Improved recursions for some compound Poisson distributions (2) 129–132
De Vylder, F., see **F. Broeckx** (1) 35– 39
Dickinson, G., see **M. Beenstock** (4) 261–270
Doherty, N.A. and **H. Schlesinger**, A note on risk premiums with random initial wealth (3) 183–185
Frees, E.W., Approximation of the initial reserve for known ruin probabilities (3) 187–196
Gerber, H.U., see **B. Heijnen** (2) 151–157
Goovaerts, M.J., see **F. Broeckx** (1) 35– 39
Goovaerts, M.J., see **K. Jansen** (4) 315–334
Goovaerts, M.J., see **R. Kaas** (1) 87– 92
Goovaerts, M.J., see **R. Kaas** (2) 165–167
Goovaerts, M.J., see **R. Kaas** (4) 279–283
Haezendonck, J., see **F. Delbaen** (3) 201–215
Haezendonck, J., see **K. Jansen** (4) 315–334
Hart, D.G., Discussion of "Discussion of methods of claim reserving in non-life insurance" by D.H. Reid (1) 57– 58
Heijnen, B. and **H.U. Gerber**, On the small risk approximation (2) 151–157
Heilmann, W.-R., On the impact of independence of risks on stop loss premiums (3) 197–199
Herkenrath, U., On the estimation of the adjustment coefficient in risk theory by means of stochastic approximation procedures (4) 305–313
Hewitt, C.C., Discussion of "A survey of the relationship between claims reserves and solvency margins" by J.F. Byrnes (1) 31– 33
Horváth, L. and **E. Willekens**, Estimates for the probability of ruin starting with a large initial reserve (4) 285–293
Hürlimann, W., Two inequalities on stop-loss premiums and some of its applications (2) 159–163
Hutchinson, T.P. and **S. Rowell**, Points systems for car insurance (4) 255–259
Jansen, K., J. Haezendonck and **M.J. Goovaerts**, Upper bounds on stop-loss premiums in case of known moments up to the fourth order (4) 315–334
Jewell, W.S. and **R.L. Milidiu**, Strategies for computation of compound distributions with two-sided severities (2) 119–127
Kaas, R. and **M.J. Goovaerts**, Best bounds for positive distributions with fixed moments (1) 87– 92
Kaas, R. and **M.J. Goovaerts**, General bounds on ruin probabilities (2) 165–167
Kaas, R. and **M.J. Goovaerts**, Extremal values of stop-loss premiums under moment constraints (4) 279–283
Khajuria, S., see **M. Beenstock** (4) 261–270
Kremer, E., On robust premium principles (4) 271–274
Lester, R., Discussion of "Underwriting strategy in a competitive insurance environment" by G.C. Taylor (1) 85– 86
Mammitzsch, V., A note on the adjustment coefficient in ruin theory (2) 147–149
Milidiu, R.L., see **W.S. Jewell** (2) 119–127
Miller, R.B., A bivariate model for total fertility rate and mean age of childbearing (2) 133–140
Moriconi, F., The submartingale assumption in risk theory (4) 295–303
O'Brien, T., A stochastic-dynamic approach to pension funding (2) 141–146
Panjer, H.H. and **G.E. Willmot**, Computational aspects of recursive evaluation of compound distributions (1) 113–116
Pentikäinen, T., Discussion of "Underwriting strategy in a competitive insurance environment" by G.C. Taylor (1) 81– 83
Reich, A., Properties of premium calculation principles (1) 97–101
Reid, D.H., Discussion of methods of claim reserving in non-life insurance (1) 45– 56
Rowell, S., see **T.P. Hutchinson** (4) 255–259
Schlesinger, H., see **N.A. Doherty** (3) 183–185
Taylor, G.C., Discussion of "Ordering of risks and ruin probabilities" by F. Broekckx, M. Goovaerts and F. De Vyler (1) 41– 44
Taylor, G.C., Underwriting strategy in a competitive insurance environment (1) 59– 77
Taylor, G.C., Discussion of "Best bounds for positive distributions with fixed moments" by R. Kaas and M.J. Goovaerts (1) 93– 95
Van Hoek, I., see **H. Wolthuis** (3) 217–254
